Welcome Oldsmobile Cutlass, 442, and Hurst/Olds Owners:

Since 1971

Oldsmobile enthusiasts worldwide turn to Fusick Automotive for their restoration needs. Our commitment to you is proven by the fact that the majority of all available reproduction parts for Oldsmobile originate here with our own tooling dies. We are the largest GM licensed manufacturer of Oldsmobile, 442, Cutlass, Rocket Emblems, as well as Guide Lenses which are all trademarks of General Motors Corporation. Look for our **Fusick** logo throughout the catalog which signifies the items that we have manufactured for the Oldsmobile hobby.

When requested, our catalogs will be included at no charge with an order. As always you have the option to download the latest versions of our catalogs via our webpage www.fusickautomotiveproducts.com. We would like to personally thank you for your patronage, and remind you that our friendly, knowledgeable staff looks forward to serving you.

Cutlass

EMBLEMS AND SCRIPTS

We stock the largest and most complete selection of emblems and ornamental parts available for 1964-77 Cutlass & 442. All parts listed in the Emblems and Scripts section are manufactured by us. Each part is carefully researched for proper size, color, pin location, and application. All emblems are made using injection die casting methods, chrome plated, and painted the appropriate color(s). Our quality emblems are then inspected and licensed by General Motors.

1964-68 442 Emblems

1964-67 442 Emblems are a quality injection die cast product, chrome plated and painted using the correct tri-color. Each emblem has red, red/orange, and yellow/orange sections as original. 1968 442 Emblems are also die cast, chromed and painted the correct semi-flat black. General Motors inspects and licenses all our 442 emblems.

1964-65 442 Emblems: Fit on the front fenders and trunk on 1964 442 and the rear quarter panels and trunk on 1965 442. 1964 owners must drill an extra hole to mount the emblems. Includes fasteners.

Manufactured with all new tooling.

1966-72 442, Cutlass S & Cutlass Supreme Grilles

For over 25 years we have been the exclusive manufacturers of Grilles for 1966-72 Cutlass-442 and Hurst/Olds. Each Grille is the result of many hours of market research, testing, and large initial investment. With the exception of the 1966 442 stamped aluminum Grille, our grilles are 100% ABS plastic using modern materials and equipment. Our Grilles are more durable while retaining the authentic appearance.

1966 442 Grille, Grille Bars and Rocket Emblem

1966 442 Grille is stamped aluminum and painted black. Grille Bars are two pieces and connect in the middle at the Rocket Emblem. Our Grille Bars are manufactured to accept the most commonly designed grille. Grille bars have three mounting studs and should be ordered in conjunction with the grille.

1971-72 442 Grilles

The 1971-72 442 Grilles were our most complex project. Grille bodies are 100% ABS injection-molded plastic. The outer molding and inner die-stamped molding add the detail needed to make the Grilles complete. The 1971 442 Grilles are black with silver border and the 1972 Grilles are silver with black border. Outer grille moldings are included with grilles but can also be purchased separately and used on original grilles with minor adjustments. The 442 Grille numerals are sold separately.

1968-70 Cutlass-442-Hurst/Olds Cast Chrome Hood Louvers:

Injection high pressure tooling, as original, with polished-chrome plated finish. Technical Tip: During our test fit process of the 1969-70 Hood Louvers, we found installation to be simplified if the hood is off car. In addition, we discovered the hood louver retaining bezel holes were too small from the factory. Drilling slightly larger holes will allow easier adjustment of the hood louver and painted retaining bezel. Both GM's and our hood louvers have a close fit tolerance. The 1968 Hood Louvers are a much easier installation.

SHEET METAL AND BODY PARTS

Standard shipping charges at front of catalog are not applicable to large sheet metal items. Large sheet metal items such as quarter panels and fenders are shipped truck freight. Shipping charges are based on your location and the number of items sent. Panels must be shipped to a commercial address. Check the body style description on inside back cover for proper identification of your model Cutlass.

REPRODUCTION QUARTER PANEL SKINS

Replace your original rusted or damaged quarter panels with these reproduction skins. In most cases, the skin is the only panel available to economically repair/restore your car. Each panel offers a good fit and will install with a minimum amount of extra body work. The panels are a partial quarter skin that do not extend to the sail panel (on coupes) or trunk lid. Not all panels are in stock; please allow time for delivery.

Reproduction 1965-75 400-455 Oil Pan: This oil pan is a duplicate that holds more oil for better lubrication and better performance. A factory oil pan holds 5 quarts including the filter; this oil pan holds 6.25 quarts with the oil filter. The pan is just 1/2 inch deeper and is wider towards the cross member. The oil pan stays above the cross member for safe road clearances. Holds all of the factory contours. It uses the factory correct drain plug that is 1/2-28 thread with the factory oversized 7/8 hex head. The nut on the inside of the pan has a factory hole in the side for engine oil draining purposes. Also features the inner oil pan baffle that was used on originals.

1975-77 Hurst T-Tops Second Design Weatherstrip Sets: These T-Top seals are for the 2nd design T-Tops supplied by Hurst. General Motors introduced a second design weatherstrip mid year through 1975 to correct leaking problems from the early versions. Second design weatherstrips will not work in conjunction with first design T-Tops. Please check the cross section diagram to the right for proper application. The second design glass sections have a chrome trim around the perimeter, unlike the first design. Weatherstrips are sold in a pair for the main body sections and there are separate pieces for the seal above the glass (that attaches to the T-Top glass panel).

WINDOW CHANNEL/SWEEPER KITS

Window Channel Kits: 1964-72 OEM style two door and convertible 8 piece Window Channel Sweeper Kits. One kit supplies the 4 inside and 4 outside horizontal sweepers typically called fuzzies, sweepers, belt-line weatherstrips, cat whiskers, etc. Appropriate fasteners and clips used where originally needed. Channel Kits for 1968-70 Cutlass Holiday Coupes with the B85 reveal molding option are also available. These sweeps attach to the optional molding rather than the top of the door and have no chrome bead on the outers.

SEAT UPHOLSTERY AND DOOR PANELS

Only black, white, pearl white, and parchment will be in stock. Special order colors require a minimum of 16 to 24 weeks. Because of materials, dye lots, and other changes, we recommend all interior components be replaced at one time. You must request a sample to ensure correct color. Door panel emblems and arm rest assemblies need to be transferred from your old panels. For earlier year models, you will need to reuse your emblems, window channel, arm rests, and upper metal reinforcement from your existing panels for the unassembled door panels/rear trim panels. Headrest covers are not included with seat covers. They are sold separately.

1964 Cutlass and 442: Specify Holiday Coupe or Convertible when ordering. The 1964 Sport Coupe interior is not available. Colors available are Black, Light Blue, Red, Saddle and White.

Dashboard Wood Grain Appliques: Precision die-cut wood grain appliques with self adhesive metal backing for 1969-72 Cutlass-442-H/O. Sets include instrument cluster, main dash, and glove box appliques. All applications have pre-cut holes for stock radio, heater controls, headlight switches, convertible top switches, etc. for ease of installation. For restorers wishing to install an aftermarket stereo system, or eliminate the radio altogether, we offer the radio delete woodgrains. We also have the Instrument Cluster Woodgrain available as separate pieces if you are just replacing the chrome Dash Bezel found on the previous page. Matching console woodgrain appliques sold separately from dash kits and are listed with the console parts in this catalog.
